Omerta · omerta-games.com

Live games with friends. Cameras, voice, one table.

Omerta is a free platform where people from all over the world play together live: Mafia, Shelter, Chess, Backgammon, Durak, Quiz Night and over twenty games in total. Right in the browser, nothing to install.

omerta-games.com · Telegram: @Omerta_games_bot

Who we are

A community for everyone who loves playing together

Omerta began as an online Mafia club and grew into a platform of live games. The idea is simple: a game is people. That is why every table has cameras and voice, and the server runs the match itself: it deals roles, counts votes and time, and keeps the rules. All you do is play.

Over 20 games
On one platform with one account.

Players from many countries
The site speaks Russian, English and Ukrainian; everyone sees tournament times in their own time zone.

Free
Everything you need to play. Premium is only looks and convenience.

Computer and phone
In the browser, in Telegram and in the Android app (omerta-games.com/android).

What we play

Games

Mafia	Classic for 10 with a rating, and City Mafia for 5–12 with the Commissioner, the Doctor, the Maniac and other roles.
Shelter	Who gets into the shelter? 4–12 players, events, secret goals.
Word games	Hidden Code, Guess the Word, Hint Taken, Hangman, Spy, Who Am I?, Word Chain, Two Truths and a Lie.
Board games	Chess, Checkers, long and short Backgammon, Dominoes, Carrom, Battleship.
Card games	Durak, throw-in and transfer; poker with friends, 18+ only and for chips only.
Party games	Scribbles, Quiz Night with a host and a scoreboard; Never Have I Ever and Truth or Dare are 18+.
The Room	Video for up to 12: films together, hanging out, meetings with screen sharing.

Ecosystem

More than just a table

Rating and leagues

A separate MMR in every game, from 1,000 to 10,000, leagues from Bronze to Legend, match history, the season pass.

Tournaments with judges

Tournaments in every game: a judge at the table, fouls and bonuses, a results table.

Clans

Your own clan: a shared chat, a tag next to your nickname, the weekly clan table and clan-vs-clan tournaments.

Omerta Love Nest (18+)

Dating inside Omerta, tied to the profile: people nearby by city and country, shared favorite games, chat after a mutual like, a room for two and a game together.

Discord communities

A server connects a channel with one button and receives tables, tournaments, news and the weekly Omerta rating.

Order at the table

Rules, moderators, reports and a fair system of penalties. Newcomers are never kicked out, and there is free training.

Love Nest

Dating as part of the game

- 18+ only: before the profile, the site asks to confirm your age. The section works only on the site itself.
- The profile is part of the Omerta profile: level, favorite games, clan and league are visible (a private profile shows only the nickname). City only, no coordinates.
- Likes: 5 a day, the same for everyone; one super like; «You were liked» is free. Premium gives no extra likes, only invisibility and a mark.
- Blocking hides people from each other; a report goes to moderators. Profiles are never published outside Love Nest, not to Discord or anywhere else.
- Dating also works through partners: a Discord channel or a Telegram chat can turn on one invitation with a «Create a profile» button (or the /profile and /anketa commands). Profiles, photos and names never go there; sign-in, the 18+ confirmation, the profile, likes and chat all happen only on the site.

Honestly

What is paid and what is not

Playing is free: servers, video, training and tournaments are paid for by Omerta. Premium and coins are looks, figurines, reactions and convenience; they give no advantage at the table. No playing for money and no bets: Omerta coins cannot be withdrawn or exchanged for money. Poker is 18+ only and for chips only.

Where we are going

Our plans

Partner network

Discord servers and communities in one network: announcements, ratings, server-vs-server tournaments.

Live · growing

New games and modes

We add games the community asks for and improve existing ones every week.

Ongoing

> We do not promise dates, we promise to build. Much of what exists today appeared because players asked for it.

Together

How to join

Play

Go to omerta-games.com, sign in with email, Telegram or Discord and take any seat.

Communities and Discord servers

Connect a channel with a button: site menu → Partnership → Connect to Discord. A tournament for your members is possible by agreement.

Join the team

Moderators, judges, ambassadors, ideas and tests of new games. Any role is agreed with the Omerta team.

Contact

Telegram @teassss (Lachesis, Admin), @MFAlice (Maneky, Admin), bot @Omerta_games_bot or the form on the Partnership page.

Come and play: there is always a seat at the table.
