Guide

Omerta partner program

Everything Omerta gives a partner, in one document. How partnership with omerta-games.com works: who can become a partner, what a partner gets, Discord (announcements, weekly rating, Love Nest), Lolka and Telegram, the mutual exchange and joint events, partner tables and the integration, roles. As of 25.11.2026.

The Omerta characters — the crew, heroes, townsfolk and villains. Feel free to use them in announcements and posts about joint events.

1. In short

- Omerta is live online games with cameras and voice right in the browser: over 20 games, including Mafia (classic for 10 and City Mafia for 5–12), Shelter, Spy, Hidden Code, Chess, Checkers, Backgammon, Durak, Dominoes and more, plus the Room for meetups and watching together.
- Around the games is an ecosystem on one account: rating and leagues in every game, tournaments with judges, clans, the season pass and Omerta Love Nest, 18+ dating tied to the Omerta profile.
- Partnership is joint work: a community, club, studio, streamer or platform brings people, and Omerta gives them games, tournaments, announcements and a place to play. Your community stays yours.
- Everything you need to play is free. Premium and coins are only looks and convenience; there are no bets and no playing for money, and coins cannot be withdrawn.

2. Who we work with

Who	What we usually do together
Discord, Telegram and other communities	Announcements and a weekly rating in your channel, a Love Nest invitation, game nights and tournaments, clans
Clubs and organizers	Online Mafia and board game nights: closed tables with a password, your own rules, tournaments with a judge
Studios and developers	We put your board, word or party game at our tables with cameras and voice
Streamers and bloggers	A separate table and a game night for viewers

Who	What we usually do together
Platforms and catalogs	Two-way placement: your games with us, Omerta with you
Brands	Joint game nights, tournaments and special projects

3. How to apply

- The form on the site: menu → Partnership (omerta-games.com/?section=partners), the «Apply for partnership» block. No account needed; we reply to the contact you leave.
- A Discord community does not need to apply: a channel is connected with the «Connect to Discord» button on the same page (section 6).
- Other ways to reach us: Telegram bot @Omerta_games_bot, the feedback form on the site, Lachesis on Telegram @teassss, Maneky on Telegram @MFAlice.

4. What a partner gets

What	How it works	Status
Discord announcements	Gathering tables, tournaments, scheduled games and news as a message with a join button (section 6)	works
Omerta rating in Discord	Once a week, one message with the top 10 open profiles in the channel's games, edited in place	works
Love Nest in Discord	Optional: one «Create a profile» invitation (18+). No one's profiles go to Discord	works
Report for your channel	How many people came from you and are playing. Totals only	works
Tournaments for your community	A tournament under your name in any game, with a judge, a table and a prize	works
Clans	Your community becomes a clan: a shared chat, a tag next to nicknames, the weekly clan table, clan tournaments	works
Partner tables and integration	A Play button on your site and your own tables — by agreement (section 5)	by agreement
A card in the Partners section	Logo, description and a link to your site	by agreement
Premium and coins for members	Subscriptions and a coin prize pool for winners and active members	by agreement
Roles in Omerta	Ambassador, moderator, tournament judge and others (section 7)	by agreement

> From a partner we usually ask for: a channel for announcements, a role or tag for Omerta players, a post about us, a joint event every week or two, a contact person and feedback.

5. Partner tables and integration

For clubs and sites with their own players: your own Mafia tables under your name, a Play button on your site and match results. We agree the format, terms and documentation with the Omerta team first.

5.1. Mutual: what we give and what you give

You give	We give
A channel or webhook for Omerta announcements	Free games for your members — more than 20, with cameras and voice
A post about us and a role or tag for Omerta players	A bot and feeds: tables gathering, tournaments, the weekly rating (Discord, Lolka, Telegram)
A joint event every 1–2 weeks	Tournaments under your name, with a judge and a table
A contact person and feedback	Premium and coins for winners, your community announced on our side, your own tag and a report: who came and plays

5.2. Joint events

Joint events are the best way to introduce your members to Omerta and our players to you. We shape the format, game and prizes around your audience — suggest your own and we will work it out together.

— **Events.** Tournaments and game nights for communities, streams with viewers, clans — we agree the details personally.

— **How it goes:** agree on the date and format → announcement on your side and ours → the event under your name → prizes and results in both communities.

5.3. Clans and Love Nest — what to tell your members

— **Clans.** Your community becomes a clan on Omerta: a clan chat, a tag next to nicknames at tables, the weekly clan table and clan-vs-clan tournaments. Your own person creates and runs the clan — clan rules in the Clans PDF (omerta-games.com/docs/clans.en.pdf).

— **Love Nest (18+).** Dating on Omerta tied to the profile: a profile, likes and a game together right away. Optionally your Discord gets one «Create a profile» invitation — profiles, photos and names never reach the chat. Do not invite minors.

— **One account for everything.** Games, rating, clan, tournaments and Love Nest are one free Omerta profile.

6. Announcements in Discord, Telegram and Lolka

Omerta posts tables, tournaments, the weekly rating and news to your channel or group by itself — with a Play button. Connecting takes a couple of minutes: site menu → “Partnership”. Step by step — in the PDF “How to connect Omerta announcements to Discord”.

— **What arrives.** Tables that are filling up, tournaments and scheduled games, news and the weekly rating of public profiles; you choose the feeds and games.

— **Love Nest (18+)** — optional: one invitation with a link to the site. Profiles, photos and names never reach the chat.

— **Safety.** Omerta does not read conversations, see members or change server settings. Players’ personal data is not published: the rating shows only nicknames and MMR of public profiles.

— **Disconnecting.** “Pause” or “Disconnect” in the Partnership section at any time; Omerta removes its own messages.

7. Roles

Any role on the site (ambassador, moderator, tournament judge and others) is agreed with the Omerta team. Partnership itself gives no role; the Discord partner status is not a role but access to the cabinet.

8. Rules for partners

— No inflating visits and sign-ups (bots, fake accounts, your own second accounts).

— No promising what does not exist: real-money games, coin withdrawal, payouts, «coming soon» features as ready.

— Love Nest is 18+ only: do not invite minors there and do not post other people's profiles.

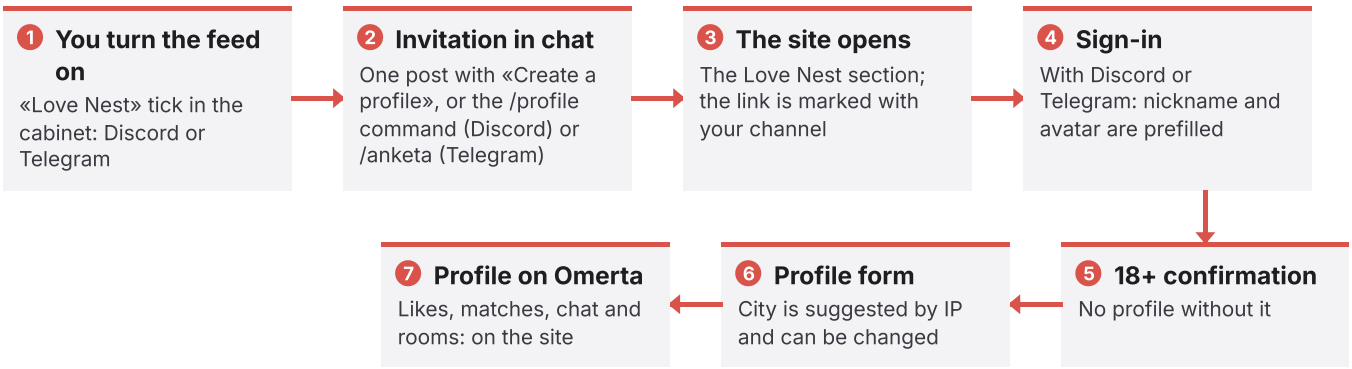

— A partner's players follow the general Omerta rules. We never share players' personal data with a partner: reports are totals only.

— Everything promised to a partner (Premium, coins, roles) is agreed with the Omerta team in advance.

Love Nest (18+)

Love Nest dating through your channel

Omerta Love Nest is dating for adults (18+), tied to the Omerta profile: people meet through games, by city and country and shared favorite games; after a mutual like they get a chat, a room for two and a game together. A partner only invites: the section itself, profiles, likes and chat live on the Omerta site.

The person's path, step by step

1. **You turn the invitation on**
   In the partner cabinet tick «Love Nest (18+)» for a Discord channel or a Telegram chat. The feed is off by default.
2. **Members see one invitation**
   Omerta posts one message, «Omerta Love Nest, dating over a game (18+)», with a «Create a profile» button. Or a person types /profile in Discord or /anketa in Telegram. The answer is visible only to them (in a Telegram group it is a reply to the command and disappears after a minute).
3. **The site opens straight in Love Nest**
   The link is marked with your channel: that is how visits and profiles are counted.
4. **Sign-in with Discord or Telegram**
   The nickname and avatar are prefilled from the account and can be changed. No separate sign-up.
5. **18+ confirmation**
   Before the profile the site asks to confirm the person is 18. Discord and Telegram do not report age, so it is confirmed on the site.
6. **The profile**
   The city is suggested by IP and can be changed by hand; coordinates are not stored, only the city.
7. **The profile appears in Love Nest**
   Like any other: people nearby by city and country see it. Dating rooms are in the main lobby; likes, matches and chat are on the site.

What is never posted and what the partner sees

Never goes to Discord or Telegram	What the partner sees
Profiles, photos, names and nicknames, who liked whom, chats and matches. The channel gets only an invitation with a link to the site.	Numbers only: visits through the channel's links, sign-ups, how many play, how many created a Love Nest profile and (in Discord) how many times the command was used per day. Who exactly is not visible.

Rules for partners

— **18+ only.** Turn Love Nest on where members are adults. The site still asks to confirm age before a profile.

— **No pings.** The bot mentions no one and sends no private messages.

— **One invitation per channel.** Omerta posts one message and sends no repeats; in a Telegram group /anketa works at most once per 15 seconds per chat.

— **You can turn it off any time.** Remove the tick and the post is deleted; there are Pause and Disconnect.

— **Moderation is on the site.** Reports, blocking and profile review are handled by the Omerta team. Blocking hides people from each other; a report goes to moderators.

How to turn it on

	Steps
Discord	1. Site menu → Partnership → Omerta announcements in your Discord. 2. Tick «Love Nest (18+)», press «Connect to Discord», pick a server and channel. The invitation appears within 10 minutes. 3. The /profile, /play and /docs commands are optional, no bot or permissions: https://discord.com/oauth2/authorize?client_id=1564627159807565928&scope=applications.commands
Telegram	1. Site menu → Partnership → Omerta in your Telegram. 2. Tick «Love Nest (18+)», press «Add to group» (you are an administrator of the group) or «Add to channel» (the bot is an administrator, post the code). 3. The bot says the chat is connected; the invitation appears shortly. The /anketa command works in a group right away.

9. FAQ

Question	Answer
Is it paid?	No. Playing, connecting Discord and receiving announcements are free. Premium adds looks and convenience.
Will you take our members?	No. Your community stays yours: we provide games and events, people talk with you.
Can the rating show only our server?	No: Omerta does not know who is on your server. The channel gets the global table for your games.
What does Discord see from Love Nest?	Only an invitation with a link to the site. Profiles, photos and names stay inside Love Nest.
Can we have a tournament just for us?	Yes: under your name, in any game, with a judge and prizes, by agreement.
Is there playing for money?	No. Coins are an internal currency and cannot be withdrawn.
What about order at the tables?	Rules, moderators, reports and bans; judges in tournaments.

10. Contacts

— Application: site menu → Partnership (omerta-games.com/?section=partners).
— Lachesis (Admin) on Telegram @teassss.
— Maneky (Admin) on Telegram @MFAlice.
— Omerta Telegram bot @Omerta_games_bot; the feedback form on the site.
